- e. kept in a form which permits identification of data subjects for no longer than is necessary for the purposes for which the personal data are processed; personal data may be stored for longer periods insofar as the personal data will be processed solely for archiving purposes in the public interest, scientific or historical research purposes or statistical purposes subject to implementation of the appropriate technical and organisational measures required by the GDPR in order to safeguard the rights and freedoms of individuals; and
- f. processed in a manner that ensures appropriate security of the personal data, including protection against unauthorised or unlawful processing and against accidental loss, destruction or damage, using appropriate technical or organisational measures.”

## **Lawful purposes**

All data processed by ReportOUT must be done on one of the following lawful bases: consent, contract, legal obligation, vital interests, public task or legitimate interests ([see ICO guidance for more information](#)). ReportOUT shall note the appropriate lawful basis in the Register of Systems. Where consent is relied upon as a lawful basis for processing data, evidence of opt-in consent shall be kept with the personal data. Where communications are sent to individuals based on their consent, the option for the individual to revoke their consent should be clearly available and systems should be in place to ensure such revocation is reflected accurately in ReportOUT's systems.

## **Data minimisation**

ReportOUT shall ensure that personal data are adequate, relevant and limited to what is necessary in relation to the purposes for which they are processed.

## **Accuracy**

ReportOUT shall take reasonable steps to ensure personal data is accurate. Where necessary for the lawful basis on which data is processed, steps shall be put in place to ensure that personal data is kept up to date.

## **Archiving and removal**

To ensure that personal data is kept for no longer than necessary, ReportOUT shall put in place an archiving policy for each area in which personal data is processed and review this process annually. The archiving policy shall consider what data should/must be retained, for how long, and why. In this case, personal staff and volunteer data shall be kept by ReportOUT for twelve months for suitable references. Email addresses and any other suitable data from the public will be kept on record for newsletters until the person requests to unsubscribe or asks for details to be taken off ReportOUT's records.

## **Security**

ReportOUT shall ensure that personal data is stored securely using modern software that is kept-up-to-date. Access to personal data shall be limited to personnel who need access and appropriate security should be in place to avoid unauthorised sharing of information. When personal data is deleted this should be done safely such that the data is irrecoverable. Appropriate back-up and disaster recovery solutions shall be in place.

## **Breach**

In the event of a breach of security leading to the accidental or unlawful destruction, loss, alteration, unauthorised disclosure of, or access to, personal data, ReportOUT shall promptly assess the risk to people's rights and freedoms and if appropriate report this breach to the ICO ([more information on the ICO website](#)).
